Our goal at the Center for Spine Care is to provide you with the best treatment possible in a pleasant and caring manner. We are sensitive to the pain you may be experiencing and for that reason you may be given medication to help with your pain. The following medication policy is intended for the safety of our patients and to limit the chance of drug interactions.

- Medications should be taken as prescribed.
- Patients should use one pharmacy for their medications and refills.
- The Center for Spine Care is available to refill prescription medications Monday through Thursday 8:00am-3:00pm, and Friday 8:00am -12:00 noon.
- Please allow 24 hours for all medication refills.
- Patients should contact their pharmacy for refills.
- Medications will not be filled on the weekend or after hours.
- Failure to comply with this policy will result in delayed or denied medication refills.
- The Center for Spine Care does not prescribe long term narcotic pain medications.
- Those patients requiring long term pain medications will be referred to a pain management specialist for all medication needs.

I certify this policy has been fully explained to me, that I have read it or have it read to me, and that I understand it.
